# WHY YOU NEED OUR LEGAL ASSISTANCE

When you are involved in a non-fault accident, make one call to our friendly Claims Team and we will immediately start the process to get you and your vehicle back on the road, with the minimum of disruption to you.

We will quickly decide what is needed to resolve the situation and make sure that you don't lose out, when it's not your fault. This can include: the recovery of your vehicle, arranging repairs for the damage, providing a replacement vehicle while yours is in for repair, recovering any other losses and expenses that you may have incurred, plus arranging Legal Services if required.

You, your passengers and authorised drivers, also get the added benefit of £100,000 insurance cover to pay your legal costs should it prove necessary to go to court, provided that, in our opinion, your case has reasonable prospects of success.

## The policy also includes assistance for any of the following matters:

- Defence of a criminal prosecution for a motoring offence
- Motor vehicle contract disputes
- Vehicle cloning
- Illegal clamping and towing
- Unenforceable parking fines
- Motor insurance database disputes
- Licence protection

## Your motor insurance policy will NOT cover all your expenses such as:

- Your policy excess
- Hire vehicle charges while yours is off the road
- Medical fees and the cost of specialist treatment
- Damage to clothing or personal belongings
- Compensation for being without transport
- The cost of repairing or replacing your vehicle, if you're insured third party or third party, fire & theft.
- Loss of earnings
- Out of pocket expenses

Please contact us before asking a Solicitor for assistance, as we are not responsible for any of their costs incurred.
